

# Puppy Training School

**Act Now! Invest in your puppy's future**

***Puppies of all sizes and breeds will benefit from good quality training classes from an early age, so we can take puppies into our classes after they have had their 2nd vaccination. The investment of your time and effort will pay off for years to come!***

Our small classes are designed to give you individual help and attention you need, and to get your puppy off to the best start in life. The first class in the 6 week course is just for the humans to attend – your puppy can relax at home for this one. We cover a huge amount of general information during the first week, and we want to give you the opportunity to ask questions about anything that may be concerning you, in a friendly, informal environment.

All of the training is done using up to date, positive reinforcement methods only, and all of our instructors are experienced trainers.

Over the 6 weeks, we will be teaching you how to teach your puppy. Rather than be about strict 'obedience', we want your puppy to have the necessary life skills to become a well rounded, fabulous family pet that you enjoy living with.
