

Amanda Robinson- Head Groomer

I am the proud owner of 11 rescued fur babies, which include 7 dogs, 2 cats and 2 guinea pigs. I have always had a deep passion for all animals since I was a young girl (many years ago) and I can't imagine my life without them.

I have worked for Drove Veterinary hospital since 2001 and have fulfilled many roles within the practice including Veterinary nursing.

In 2015 we made the wonderful decision to open the grooming studio for which I am so proud to be part of. I absolutely love my job and each day is never the same.

They say if you do a job you love, you will never work a day in your life, and that's is so true! In my free time I like to go for long country walks with my doggies, Kickboxing, horse riding, swimming and cycling, and of course snuggling up with my dogs, oh and drinking wine.

Larissa - Assistant Head Groomer

My name is Larissa. I am lucky enough to own a little Rescue imperial shih tzu named Bonnie. We love to go on our country walks with our fur friends. Our favourite things to do together are walking, going to the pub gardens and snuggling on the sofa with a cuppa. I have worked for drove vets grooming studio since 2018 and I love every minute.
